If Rider 2 has a fault (knockdown or refusal) they must return to the holding area pass baton/whip to Rider 1 who takes over jumping the rest of the course. The course must be jumped twice in total. There is another changeover of riders required between end of round 1 and starting round 2. Every time there is any fault there must be a changeover of riders/horses.

The whole thing is timed from the start of the first round to the finish of the second round, the faster you are the better! No limit to the number of times changeovers happens, no faults are included unless there is a tie for time.
